

SPRINKLER PERMIT AFFIDAVIT

I, _____, the owner or agent for the owner of the property described as Parcel ID No. _____ understand that restrictions and limitations apply to the construction, maintenance, and operation of irrigation-sprinkler systems located in rights-of-way and utility easements.

I intend to install an irrigation-sprinkler system which:
(check one)

- Encroaches a Pasco County right-of-way.
- Does not encroach a Pasco County right-of-way.

Restrictions and limitations for irrigation-sprinkler systems located in Pasco County rights-of-way:

1. The irrigation-sprinkler system will be constructed in a manner preventing excessive spray from being projected further into the right-of-way and preventing excessive amounts of runoff from pooling in the right-of-way, specifically, into the traveled roadway and pedestrian areas.
2. It is expressly stipulated that the placement of an irrigation-sprinkler system upon public property (right-of-way) shall not create or vest any property right.
3. Whenever Pasco County decides to further exploit the County right-of-way, any and all facilities installed shall be immediately removed from the said right-of-way, or reset or relocated thereon as required by Pasco County at no expense to the County.
4. The permit applicant and successors shall save and keep Pasco County harmless from any and all damages, claims, or injuries that may occur by reason of construction, maintenance, and operation of said facility.
5. The placement of irrigation-sprinkler facilities on a utilities easement will be done at the owner's risk. The permit applicant and successors shall save and keep Pasco County harmless from any and all damages, claims, or injuries that may occur to the property owner, or to utility facilities located in the easement as a result of construction, maintenance, and operation of the irrigation-sprinkler system.

I have read the foregoing and am aware of the restrictions and limitations on the construction, maintenance, and operation of irrigation-sprinkler systems. If the undersigned is acting as agent for the property owner, I agree in good faith to inform the owner of these restrictions and limitations prior to commencing construction of the irrigation-sprinkler system.
